

## **YUKON-CHARLEY RIVERS NATIONAL PRESERVE 2003 COMPENDIUM**

National Park Service (NPS) regulations applicable to the protection and equitable public use of units of the National Park System grant specified authorities to a park superintendent to allow or restrict certain activities. NPS regulations are found in Titles 36 and 43 of the Code of Federal Regulations (CFR) and created under authority and responsibility granted the Secretary of Interior in Titles 16 and 18 of the United States Code. The following compendium comprises a listing of all NPS regulations that provide the Superintendent with discretionary authority to make designations or impose public use restrictions or conditions. The larger body of NPS regulations that do not provide discretionary authority to the Superintendent is not cited in this compendium. A complete and accurate picture of regulations governing use and protection of the Park and Preserve can only be gained by viewing this compendium in context with the full body of applicable regulations found in Titles 36 and 43 CFR. *Please contact Yukon-Charley Rivers National Preserve, Fairbanks, Alaska at (907) 457-5752 for questions relating to information provided in this compendium.*

### **SUBPART A – PUBLIC USE AND RECREATION**

#### **13.17(d)(8)(ii), (iv) Established conditions for removal of cabin for which a cabin permit has been denied, expired, or revoked**

No conditions or standards established.

#### **13.17(e)(5)(i) Designated cabins or other structures for general public use**

Cabins located along or near the Yukon River and known as the Nation Bluff Cabin, Glenn Creek Cabin, Washington Creek Cabin, Kandik River Cabin, Slaven's Public Use Cabin, Slaven's Roadhouse, and Coal Creek Camp Public Use Cabin are available for public use at no cost. Use of any combination of cabins shall not exceed seven days in a 30-day period without a permit from the Superintendent.

#### **13.17(e)(5)(ii) Established conditions and allocation system to manage the use of designated public use cabins**

No restrictions. All cabins are "first come-first-served" and shared basis.

#### **13.17(e)(7)(iv)(B) Established conditions for removal of temporary facility (more than 14 days)**

Individuals must remove facility, all personal property, and return the site to its natural condition.

*These conditions are intended to protect the park from impacts to vegetation and soil and to ensure that personal items are not left in the park.*

Areas temporarily restricted or closed to camping are listed under 13.30(d)(2).

**13.18(b) Picnicking-areas where prohibited by posted signs**

No restrictions.

**13.19(b) Carrying firearms**

Temporary restrictions are listed under 13.30(d)(2).

**13.20(d) Collection of Natural Features**

There are no additional restrictions.

**13.22(c) Designate areas where personal property may not be left unattended for any time period, limits on amounts and types, manner in which property is stored**

- All caches must be labeled with the name of the owner, home address, telephone number, and date that the cache was established. If the cache contains fuel, the type of fuel must be noted. Unlabeled caches may be removed or impounded.
- Caches left for more than 4 months will be considered abandoned and may be removed or impounded by Park Rangers.
- All caches must be secured in such a manner that wildlife is unable to access the cache contents.
- Fuel caches will be limited to one location, and no more than 30 gallons may be registered to a single owner.
- Fuel caches will be stored at least 100 feet from any water source, gravel bar, or flood plain. Fuel must be contained in a UL approved steel fuel container and placed on impervious material in such a manner that any spillage would be contained and prevented from coming into contact with water, soil or vegetation.
- A Special Use Permit may be obtained from the Superintendent for unique or special circumstances that require a cache to be left in place for more than 4 months. All such requests must be made in writing to the Superintendent at 201 First Avenue, Fairbanks, AK 99701.

*These restrictions are intended to limit unauthorized abandonment of personal property in the Preserve and minimize impacts to resources and other visitors. There has been a particular problem with visitors abandoning property in and in close proximity to public use cabins and historic structures. These restrictions serve to minimize or eliminate this problem. Requiring that all caches be labeled and dated serves to ensure that items are not cached longer than allowed and also to provide the NPS with the owner's contact information if park officials need to contact the owner regarding the property. Unlabeled or undated caches are an indication that the owner has no intention of returning or retrieving the property. Experience indicates that caches older than 4 months are usually abandoned. Unlabeled fuel is of questionable use since fuel deteriorates with age. Fuel caches require special containers and handling because fuel spills can contaminate soil and water. Fluctuating river levels and unstable stream banks make streamside, gravel bar, and flood plain cache locations unsuitable.*

**13.30(d)(1) Temporary closures and restrictions relating to the use of aircraft, motorboats, and non-motorized surface transportation or to the taking of fish and wildlife**

No closures or restrictions.

**13.30(d)(2) Temporary closures and restrictions (other)**

No closures or restrictions.

**SUBPART B – SUBSISTENCE**

**13.49(a)(1) May permit cutting in accordance with specifications of permit for subsistence timber harvest (house logs & firewood)**

The superintendent may allow subsistence harvest of trees greater than 3” subject to the terms and conditions of a permit.

*The above restriction serves to minimize impact to park resources, ensure that natural biodegradation processes are unimpaired, and protect against over-harvest.*

**13.49(a)(2) Restrictions on cutting of live timber less than 3" in diameter for subsistence purposes**

No restrictions.

**43 CFR, PART 36 TRANSPORTATION AND UTILITY SYSTEMS (Access Regulations)**

**36.11(c) Temporary closures or restrictions on the use of snowmachines for traditional activities**

**36.11(f)(3)(ii) Established procedure for salvaging and removing downed aircraft.**

A permit is required from the superintendent before downed aircraft may be salvaged and removed from the park; violation of the terms and conditions of the permit is prohibited.

*This requirement allows the superintendent to establish terms and conditions for salvage operations as necessary to protect resources, provide for public safety, and minimize impacts on visitors.*

**36.11(g)(1) Use of off-road vehicles (ORV) on established trails**

No trails designated for ORV use.
